## CUBA'S ARMY TO DISBAND

The Santa Cruz Assembly Obeys Gen. Garcia's Wishes.

**MAYOR OF GUANTANAMO**

Gen. Pedro Perez is Appointed by Gen. Wood and Takes the Oath of Allegiance to the United States—Committees of the Revolutionary Assembly Have Been Named.

Santiago de Cuba, Nov. 11.—Gen. Wood telegraphed this morning from Guantanamo to your correspondent that he had appointed Gen. Pedro Perez, of the Cuban army, mayor of Guantanamo. Gen. Wood reached Guantanamo on the gunboat Hist yesterday after weathering a fierce gale. Heavy seas boarded the little converted yacht, damaging her upper works considerably. When he reached Guantanamo Gen. Wood summoned Gen. Perez and the leader of the other Cuban faction before him and told them to come to some agreement on a candidate for mayor. Gen. Perez was himself a candidate, and being well thought of by the citizens of the city and district who took no part in the insurrection, Gen. Wood decided to make him mayor. Gen. Perez took the oath of allegiance to the United States Government, promising to support American rules so long as the Stars and Stripes float in Cuba.

Gen. Wood removed a large number of useless officials and instructed Gen. Perez to nominate men to fill all the necessary places, the nominations to be submitted to him for approval.

Gen. Wood told Gen. Perez that the Guantanamo district was the richest and most important part of the province of Santiago and that he must be careful in his selection of men, as he would be held strictly responsible for them. He also told the Cubans that he would give public offices to such of them as showed themselves deserving, and would keep out foreigners.

Col. Ray, commander of the Third Immunes, who are stationed at Guantanamo, was instructed by Gen. Wood to use the public money for public improvements, and to give none of it to loafers.

Gen. Perez voluntarily promised to immediately disband those of his men who had not already been given unlimited furloughs and to deposit their arms in the arsenal at Guantanamo as evidence of his good faith toward the Americans. Gen. Wood assured him that if he would do this the Americans would supply rations to his men when they returned to their farms until they were able to raise crops for themselves.

Cubans here were informed today that the revolutionary assembly at Santa Cruz del Sur had authorized the disbandment of the Cuban army, and named the committee to go to Washington to see President McKinley and the one to sit at Marianao to represent the interests of the men who have been fighting against the Spaniards.

The action of the assembly ordering the disbandment of the army is regarded here as a triumph for Gen. Calixto Garcia. The best he hoped to accomplish when he left for Santa Cruz was to have the soldiers sent home on furloughs.

The committee that will go to Washington is composed of Gen. Calixto Garcia, Miguel Gomez, Jose Antonio Llanusa, Gen. Manuel Sangulilly, and Jose Ramon Villalon.

The committee to represent the interests of the army consist of Gen. R. Portuondo, Gualberto Gomez, Aurelio Itevia, Antonio Vevo, and Chanche Montagordo.

The committees are not made up according to Gen. Garcia's plan, but the members are all his friends. They represent the conservative interests in the revolutionary party. It was intended that Gen. Sangulilly should be chairman of the Marianao committee, which will be known as the executive committee of the island. He preferred, however, to go to Washington. It is said that the executive committee will have full charge of the interests of the revolutionary party until the future status of the island is definitely determined.

Carlos Garcia has received word from his father that he expected to sail for the United States tonight, traveling by way of Havana. Capt. Antonio Garcia went north on the transport Berlin to engage quarters for the committee in New York and Washington.

Walter Donaldson, collector of customs, received instructions from Washington today that the Ward Line steamers are now the regular mail boats and, as such, are exempt from the tonnage dues of twenty cents per ton imposed on all vessels entering the ports controlled by the Americans from ports controlled by other nations. The tonnage dues on steamers such as those owned by the Ward Line average \$300 per trip and the new arrangement is equivalent to the payment by the United States Government to the Ward Line of a subsidy of that amount.

It dispenses with the unnecessary work of collection of the tonnage dues by the Treasury Department and their refunding by the Postoffice Department, and it means the establishment of a quick mail service between Santiago and New York. The arrangement causes much satisfaction here. Under the old arrangement the Ward liners bound for New York from ports of the island under Spanish control avoided Santiago and the mails were often delayed from one to three weeks. The concession of the tonnage dues in consideration of carrying the mails was made on representations from Gen. Wood.

## KILLED THE REPORTER.

A Burly Texan Would Not Listen to His Apologies.

Galveston, Tex., Nov. 11.—William B. Blythe, a reporter on the Evening Tribune, was shot and instantly killed by Major Edwin S. Easley, a prominent lawyer, this morning. The shooting occurred in the editorial rooms of the Tribune, and grew out of an article in yesterday's Evening Tribune, relating to an incident in the school days of two young women and how they met in this city after a separation of ten years.

Although the article mentioned no names and cast no reflections, Major Easley claimed it aspersed the character of his wife, and hunted up Blythe. While the latter was apologizing and declaring that he meant no harm, Easley shoved a revolver against his breast and fired, and as his victim was falling clubbed him over the head with his pistol.

Easley is a large, powerful man, middle-aged and a member of a prominent Texas family.

Blythe was twenty-six years of age, married and had been on the Tribune staff since last May.

## SUIT BARRED BY TIME.

Interesting Decision in the Case Against P. T. Niland.

The decision rendered by Justice Cole yesterday in the case of the Chesapeake and Potomac Telephone Company against Patrick T. Niland is one of general interest to the public, but more especially to the legal fraternity.

The circumstances of the case are that in 1933 Niland, who is a plumber, in connecting a house in M Street with the gas main, drove a pipe underground which passed through the conduit of the telephone company. Neither the company nor Niland knew that this had been done until more than three years had elapsed. The company recently, in endeavoring to run its wires through this conduit, first learned of the obstruction. It became necessary to dig up the streets and lay a new section of the conduit. The company then brought suit against Niland to recover damages for the injury done.

Niland contended the suit was barred by limitations. It was contended on behalf of the company that suit could be brought at any time within three years after the discovery of the injury.

## MAY DEFER PAYMENT.

Creditors of Tradesmen's National Bank of New York Agree to Wait.

Yesterday Controller of the Currency Dawes decided to permit the Tradesmen's National Bank, of New York, to go into voluntary liquidation. His decision was due to a report of the committee appointed by him to examine the affairs of the bank.

The committee reported that the creditors holding claims aggregating \$400,000 had agreed to defer their demands for payment for four months. All other depositors will be paid in cash. The investigating committee expressed confidence of the abundant sufficiency of the assets of the bank to pay depositors in full within four months.

**Gen. Woodford for Senator.**

It seems to be the general opinion among Republicans that Gen. Stewart L. Woodford, former minister to Spain, will be chosen as the colleague of Mr. Thomas C. Platt. No one else has been seriously talked of, and Gen. Woodford is said to have received assurance of support from most of the prominent Republican leaders in New York State. The friendship between Gen. Woodford and Senator Platt is of many years' standing, and the general's appointment as minister to Spain is said to have been due to Mr. Platt's influence. Gen. Woodford, Dr. Chauncey M. Depew and Mr. Joseph H. Choate are the principal aspirants for Senator Murphy's seat in the United States Senate. Gen. Woodford is everybody's friend and his election would probably be satisfactory to all factions, and so is Heinrich's Maerzen Beer everybody's friend. Its selection for a table beverage proves it gives satisfaction to all.
